   Griffin Powell, City Planner, presented the request for a major modification to the AC Hotel by Marriott Orange Beach Planned Unit Development (PUD) Master Plan to (1) provide all parking onsite (160 total spaces); (2) eliminate the previously approved off-site parking area; (3) relocate a portion of the lodging rooms to the rooftop level; and (4) add public access to the previously approved rooftop lounge. There are no changes to the 100-key hotel program and the overall building height. The property is located at 23370 Perdido Beach Boulevard. The Planning Commission approved its motion for favorable recommendation (8-0).

   Councilmember Stuart confirmed that the height of the barrier has not changed.

   Councilmember Robertson asked if the rooftop lounge is only for guests. It was clarified that the rooftop lounge is open to the public and that 35 parking spaces are dedicated to lounge parking only.

   Mayor Kennon explained the history of the property, previously a church, that has since become an eyesore.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ORANGE BEACH, ALABAMA, AS FOLLOWS:

Chapter 70 - TRAFFIC AND VEHICLES

Article IX. - BICYCLES, MICROMOBILITY DEVICES, AND ELECTRIC MOTORCYCLES

Sec. 70-___. - Findings.

a. The City of Orange Beach is an Alabama class 8 municipality vested with sovereign power to protect the public health, safety, and welfare by Alabama Code §11-45-1. The city is further empowered to adopt and enforce reasonable regulations of individual activity and behavior that may create dangerous conditions impacting the health and safety of citizens and visitors alike.

2. 2026.07.07 Letter from Coastal Alabama Business Chamber - Shrimp Festival Request

RESOLUTION NO. 26-xxx

A RESOLUTION AUTHORIZING THE EXECUTION OF A USE AGREEMENT WITH THE COASTAL ALABAMA BUSINESS CHAMBER FOR THE 53rd ANNUAL NATIONAL SHRIMP FESTIVAL

FINDINGS:

1. The Coastal Alabama Business Chamber, a domestic non-profit corporation, is hosting an event entitled the 53rd Annual National Shrimp Festival in the City of Orange Beach's neighboring city, the City of Gulf Shores. The Coastal Alabama Business Chamber has requested use of two (2) all terrain vehicles (ATVs) during the event for the purpose of assisting in public safety and other necessary event tasking required to make the event successful and safe.
2. The Coastal Alabama Business Chamber is a business-based association which works to preserve, enhance and expand the business environment in Coastal Alabama. They do so by furthering business advocacy and promoting community enrichment and leadership in events and programs. The Annual National Shrimp Festival has previously proven to boost public morale and stimulate economic growth by encouraging attendants to visit local businesses and providing increased revenues to local businesses through the attraction of visitors, and other efforts. These economic and socioeconomic impacts are in line with the "public purpose" as defined by the Alabama Supreme Court.
3. The City wishes to serve the public to the highest capacity in everything it does. Providing assistance to Coastal Alabama Business Chamber for logistical support of the 53rd Annual National Shrimp Festival serves the public purpose through an event that stimulates Coastal Alabama and the City of Orange Beach economy.
4. After having reviewed the use agreement, the City Council has determined that the provisions are in the best interest of the City of Orange Beach, Alabama.
5. The term of this agreement shall be effective on and after its adoption by the City Council and execution by the Mayor, and shall continue in full force and effect until the ATVs have been returned to the City following the completion of the event on or about October 12, 2026.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ORANGE BEACH, ALABAMA, AS FOLLOWS:

1. That the Council authorizes the Mayor and City Clerk to execute and attest, respectively, the Use Agreement (attached Exhibit A) in substantially the form and of substantially the content now before the Council between the City of Orange Beach and Coastal Alabama Business Chamber as an act for and on behalf of the City of Orange Beach, subject to final approval by the City Attorney; and
2. That this Resolution shall become effective immediately upon its adoption.

Greetings Ford,

For many years the City of Orange Beach has been very generous to loan our Shrimp Festival Committee two ATV type vehicles for use during our event. We are hopeful that the tradition will continue. Past events our contact for scheduling and delivery has been Coastal Resources Director Phillip West and Recreation Facility Maintenance Coordinator Brad Johnson.

This year our event dates are Thursday through Sunday October 8-11, 2026. Previously we have taken delivery of the vehicles the Monday of Shrimp Festival Week; this year that date is October 5, 2025. The vehicles are usually picked up from the Festival site on the Monday following the Festival; this year that date is October 12, 2026.

We are grateful for the past support and the tremendous assistance that these vehicles provide for the execution of our event. Please contact me with any questions.

II. COMPREHENSIVE PLAN REVIEW

Section 7.03 of the Orange Beach Zoning Ordinance states the purpose and intent of the PUD ordinance to have developments that promote the goals of the comprehensive plan, and no PUD shall be approved unless it is consistent with the goals of the comprehensive plan. The *City of Orange Beach Preservation and Growth Management Plan, 2020-2035* shows this property as part of the **Northwest Orange Beach District**. The proposed PUD complies with the mission of this district as follows:

Mission Statement for the Northwest Orange Beach District
The City of Orange Beach seeks to preserve, protect and maintain the integrity of the existing neighborhoods while providing an opportunity for suitable mixed-residential and commercial developments, integrating Traditional Neighborhood Design Criteria (TND) and limiting the use of cul-de-sacs. The City also seeks to provide additional water access and create a viewshed to be enjoyed by all.

The applicant states the following: "The proposed Margaritaville at Wharf Landing Amenity District PUD will allow the already approved Amenity District site plan to be enhanced to further aid in creating the resort feel of the entertainment/amenity portion of this resort development and bringing this district up to par with already approved commercial, retail and residential portions of the Margaritaville at Wharf Landing Resort. With this final step within the Amenity District, the Margaritaville at Wharf Landing project will practically encompass all envisioned land uses of the Northwest Orange Beach District in a single development."

III. PUD DESIGN STANDARDS

Section 7.03 of the Orange Beach Zoning Ordinance requires all proposed PUD to achieve one or more of the following design standard objectives. The applicant indicates that 2 of the 12 design standards will be met.

- **More usable and suitably located open space, recreation areas and other common facilities.** Applicant's response: "The Amenity District PUD provides 6.36 acres of more usable and suitably located open space, recreation areas and common facilities within the heart of the Margaritaville at Wharf Landing Resort. While the land use portion of the already approved site plan for the Amenity District remains unchanged, the PUD will allow for the enhancement of the experience."

- **Superior development and redevelopment which is more desirable than that which would occur through strict application of the zoning code.** Applicant's response: "While the Sign Ordinance as found in Article 15 of the City of Orange Beach Zoning Ordinance provides a set of rules and regulations for signs within the city as they may be related to a more standard or typical use, it does not address the use of signs within a resort type development. As part of the overall experience and feel of the resort, signage used for wayfinding, location identification, etc. needs to be visible but also identified as an element of the resort. The Margaritaville brand is very specific in the creation and implementation of signage which at times means that size, materials and location may not fit within a previously defined sign ordinance. The PUD could allow for the use of these brand specific ideas without the risk of diminishing the intent of the Sign Ordinance."

IV. PUD MASTER PLAN REVIEW

Section 7.04 of the Orange Beach Zoning Ordinance states that an approved PUD shall be considered a separate zoning district in which development plans, as approved, establish the specific restrictions and regulations customized to fit the type of plan proposed by which the development shall be governed. Restrictions may be greater or lesser than the ones otherwise imposed by the zoning ordinance and subdivision regulations to achieve a development with fits the comprehensive plan and PUD design standards.

1. **<u>Density</u>: The criteria for establishing an average density includes the land use plan for the area, existing surrounding density, density permitted by the existing zoning classification, adequacy of existing and proposed public facilities and services and site characteristics. Density must generally conform to the requirements as set out in Article 4 of this ordinance and conform to the Comprehensive Plan. (Section 7.04, A.)**

The Amenity District is a commercial and recreational area that will be part of the Margaritaville Resort. The purpose of this PUD is not to modify the already approved site plan (Case No. 0803-SP-25), but to allow for the installation of the required signage within the district. The Margaritaville brand dictates signage which has been determined to be outside of what is permitted in Article 15 of the zoning ordinance. According to the applicant, the proposed signage is not intrusive to the proposed resort concept of Margaritaville's adjacent properties but is very specific to the Margaritaville brand and varies in types, sizes, and locations. It has been determined that a PUD is the best approach to addressing these needs as they are specific to the project and unlikely to be replicated in other projects outside the Margaritaville Resort.

The following is a review of the site plan review approval for the Amenity District:

- The Amenity District will have five structures:
  - Amenity Building 1, *Fins Restaurant & Bar* – 10,430 SF
  - Amenity Building 2, *Salty Rim Pool Bar* – (1,955 SF
  - Amenity Building 3, *Restrooms, Locker Rooms, Equipment Room* – 2,755 SF
  - Amenity Building 4, *Restrooms, Equipment Room* – 3,150 SF
- The four buildings will have a total footprint coverage of 18,290 SF, equating to a building coverage of 5.4 percent.
- The Amenity District will have a waterslide tower. The tower will cover 408 SF and will have a height of about 55 feet.
- Other recreational amenities will include a swimming pool area, lazy river, waterslide area, kids dry playground, kids pool, and a stage and event yard.
- The total impervious area (buildings, asphalt, concrete, etc.) will cover 43 percent of the site.
- In front of Amenity Building 1, there will be a golf cart parking area for 50 golf carts.
- In the current GB zoning, the required setbacks are 30 feet for the front and rear sides and 10 feet on the sides. The placement of the buildings on the site complies with the setback and building separation requirements.

2. **Common Open Space: At least 20 percent of the area covered by a Final Development Plan shall be landscaped or provide common open space owned and operated by the owner/developer or dedicated to a homeowner association or similar group. (Section 7.04, B.)**

   This is a commercial and recreational development that will be part of the Margaritaville Resort. The developer will own and maintain the Amenity District as a separate entity from other districts within the resort.

3. **Access and Parking: All streets, thoroughfares and access ways shall be designed to effectively relate to the major thoroughfare plans of the City of Orange Beach. Adequate off-street parking shall generally conform to the off-street parking requirements set forth in Article 8 of the Zoning Ordinance unless otherwise approved. (Section 7.04, C.)**

   The applicant indicates that the Amenity District will not require any additional parking. This area will be limited to a maximum allowable occupancy as determined by the number of sleeping rooms at the resort. The maximum allowable occupancy also defines the number of parking spaces required on the premises. The total number of day passes available to the public for use of the Amenity District will be determined by the daily vacancy count of sleeping rooms that in turn will provide a certain number of parking spaces. According to the applicant, this method will eliminate the need for additional parking as this area will never exceed the maximum allowable occupancy determined by the number of sleeping rooms.

Fins Restaurant and Bar will be in Amenity Building 1. This restaurant and bar will not be open to the public. Access to both will be for resort guests and day pass holders.

Overall, Margaritaville Resort will require **1,210 parking spaces**. The following table presents the use and parking ratio breakdown for the resort districts.

Overall, Margaritaville Resort will provide **1,220 parking spaces**. The following table presents the parking breakdown per district.

District	Parking Spaces Provided
Waterfront District	421
Amenity District	0
Residential District	491
Back of House District	308
Total Parking Spaces Provided	**1,220**

In front of Amenity Building 1, there will be a golf cart parking area for up to 50 spaces.

4. **Perimeter Requirements: The Planning Commission the City Council may impose the requirement that structures, buildings and streets located at the perimeter of the development be permanently screened to protect the privacy of the adjacent existing uses. (Section 7.04, D.)**

   No land use buffering is required due to the resort uses to the east and west. The neighboring property to the south is commercially zoned.

5. **Signage: The size, location, design and nature of signs, if any, and the intensity and direction of area floodlighting shall be detailed in the application and must generally conform to the sign regulations in Article 15, unless the massing and scale of the PUD would make additional or different requirements desirable. Signs must nonetheless fit the design character of the development. (Section 7.04, E.)**

   The purpose of this PUD is to allow resort-style signage in the Amenity District that is outside of the signage regulations in Article 15 of the zoning ordinance. The proposed signage is very specific to the Margaritaville brand, and the City's current sign regulations are geared toward standard or typical uses rather than those for resort type developments. After reviewing the proposed signage plan, the following deviations to Article 15 are requested:

   Fins Restaurant & Bar
   - Wall Signage, 220-285 SF – *exceeding 125 SF limit (Section 15.0901, a.)*
   - Sign affixed to sloped roof – *prohibition against roof affixed signs (Section 15.06, 15.)*

   Waterslide Tower
   - Two, ~100SF Freestanding Signs located on Waterslide Tower, 50' above grade – *freestanding signs limited to height of 15 feet (Section 15.0801, b.)*
   - Two, ~100SF Freestanding Signs with sign face widths of 18.5 feet – *sign face width limited to 15 feet (Section 15.0801, c.)*
   - Two, ~100 SF Freestanding Signs located on Waterslide Tower – *support structure for freestanding signs cannot exceed the sign face area by more than 100 percent (Section 15.0804, d.)*

   Salty Rim Pool Bar
   - Signs and a 240-SF video screen affixed to a sloped roof – *prohibitions against roof affixed signs (Section 15.06, 15.)*
   - Video Screen is 240 SF – *video screen is viewed as an electronic changeable copy sign; issues regarding area, height, and duration (Section 15.0804, e.)*

6. **Height Limitation: The criteria for establishing height limitations includes the land use plan for the area, existing surrounding building heights, heights permitted by the existing zoning**

classification, adequacy of existing and proposed public facilities and services and site characteristics. Height limitations must generally conform to the requirements as set out in Article 4 of this ordinance and conform to the Comprehensive Plan as well as the architectural standards set out in Article 10. (Section 7.04, F.)

The buildings in the Amenity District will be single-story structures. Fin Restaurant & Bar will have a mean building height of 21 feet, while the mean building height at the Salty Rim Pool Bar will be 16 feet.
The waterslide tower will have a total height of roughly 55 feet. In GB zoning outside of the Restricted Height Overlay District, commercial structures may have a height up to 140 feet.

7. **Landscaping and Tree Protection: The criteria for landscaping, removal of trees and protection of heritage trees should generally conform to the requirements of Article 16. (Section 7.04, G.)**

The landscape ordinance requires a minimum of 20 percent of the developable site must be landscaped or preserved. The project complies with this requirement because 57 percent of the developable part will be landscaped. Margaritaville Way will be a private right-of-way ("ROW") and roadway connecting the resort to the Foley Beach Express and Brown Lane. Within the ROW, there will be palm trees planted on both sides of the road. In February 2025, the project obtained a variance from the Board of Adjustment to Section 16.04, B. 1. to forgo the required hedge materials in the perimeter landscaped area along the ROW.

V. DEVIATIONS FROM THE ZONING ORDINANCE AND SUBDIVISION REGULATIONS

1. This PUD proposes the following deviations to the zoning ordinance:

	Section	Provided	Required

			more than one time per 15 seconds.
6	Section 15.0901, a. *Special Sign Standards – On Premises Sign Standards*	At the *Fins Restaurant & Bar*, one of the wall signs is 220 SF.	For building and wall graphic signs, the maximum size of the sign is limited to 125 SF.

2. There are no proposed deviations to the subdivision regulations.

VI. STAFF COMMENTS

1. The purpose of the PUD is to implement signage standards specific to the Margaritaville brand that do not fit within Article 15 of the zoning ordinance. There are no changes to the site layout from the previously approved site plan review.

2. During site plan review approval (Case No. 0803-SP-25), staff had recommended that the applicant seek variances from the Board of Adjustment to allow for the proposed signage at *Fins Restaurant & Bar* and the *Salty Rim Pool Bar*. At the time, the freestanding sign on the waterslide tower was not proposed.

VII. CITY COUNCIL OPTIONS

1. **APPROVAL** of preliminary and final PUD approval to rezone 7.8 acres or Lot 2 of The Wharf Landing Phase 4 Subdivision from General Business (GB) to Planned Unit Development (PUD) for the previously approved Amenity District of The Margaritaville Resort.
2. **APPROVAL WITH CONDITIONS** of preliminary and final PUD approval.
